6/12/2020

Notice of Special Interest (NOSI): Limited Competition for Emergency Competitive Revisions for Community Engagement Research on COVID-19 Testing among Underserved and/or Vulnerable Populations

Application budgets are limited to $500,000 Direct Costs (exclusive of third-party facilities and administration [F&A] costs) and need to reflect the actual needs of the proposed project.

Projects must include a focus on one or more NIH-designated populations characterized by an official relationship between the SBC and that population. Populations may include, but are not limited to, racial and ethnic groups as well as individuals with disabilities.

Any individual(s) with the skills, knowledge, and resources necessary to carry out the proposed research as the Program Director(s)/Principal Investigator(s) (PD(s)/PI(s)) is invited to work with his/her organization to develop an application for support. Individuals from underrepresented racial and ethnic groups as well as individuals with disabilities are encouraged to apply for NIH support.

Applications are expected to describe how research outcomes will lead to improvements in health disparities related to their funded project, whether within the scope or outside of the scope of the current project, regardless of the time remaining on the current project.

Only competitive supplements are eligible for consideration. Supplements that are related to their funded project, whether within the scope or outside of the scope of the current project, regardless of the time remaining on the current project, are not eligible for funding.

Applications must begin as of July 8, 2020, for Application Due Dates of August 7, 2020 OR September 8, 2020

Applications may be submitted beginning as of July 8, 2020, for Application Due Dates of August 7, 2020 OR September 8, 2020

5/27/2020
Notice of Special Interest (NOSI): Administrative Supplements to Existing NH ECHO Cooperative Agreements (U54-CT) - COVID-19 (COVID-19): Revised Research
PA-19-095
Each application budget is limited to no more than $200,000 Direct Costs for one year, and must reflect the actual needs of the proposed project. If applicants are considering an administrative supplement that requires more than $200,000 Direct Costs, the applicant should discuss this issue with their program official well before submission.
Existing ECHO Cohorts, Coordinating Center, Data Analysis Center, and FRD Core awardees are eligible to apply. Existing subawardees are not eligible to apply. This opportunity is limited to one application per existing ECHO award.
6/29/2020
NOT-OD-20-107

NCI-OMHW

5/26/2020
Notice of Special Interest (NOSI): Availability of Administrative Supplements & Urgent Competitive Revisions for NCI-OMHW for Natural Products Research on Severe Acute Respiratory Syndrome Coronavirus 2 (SARS-CoV-2) & Coronavirus Disease 2019 (COVID-19)
PA-19-095
Up to $150K in direct costs
Only existing awardees of NCIOMHW active awards are eligible to apply. The parent award must be active when the application is submitted (i.e., within the originally reviewed and approved project period, but not in non-renewal extension period). There must be sufficient time left in the award to complete the studies proposed after the supplement or revision has been awarded within the existing project period. Only preclinical studies are allowed for this NGSI.

Office of Strategic Coordination (Common Fund)

5/21/2020
NIH Director’s Emergency Transformative Research Awards (H3A) Clinical Trial Options
PA-20-200
Application budgets are not limited but must be commensurate with the scope of the proposed research.

5/21/2020
NIH Director’s Emergency Transformative Research Awards (H3A) Clinical Trial Options
PA-20-201
Up to $250K in direct costs per year
Application budgets are limited to no more than $200,000 in direct costs, plus applicable F&A, and must reflect the actual needs of the proposed project.

NIADD

5/19/2020
Notice of Special Interest (NOSI): Select Research Areas for Severe Acute Respiratory Syndrome Coronavirus 2 (SARS-CoV-2) & Coronavirus Disease 2019 (COVID-19)
PA-20-210
Total funding support (direct costs, indirect costs, fees) normally may not exceed $252,131 for Phase I awards and $1,680,879 for Phase II awards.
Applicants are strongly encouraged to contact program officials prior to submitting any application in areas of the hard caps listed above and early in the application planning process. In all cases, applicants should propose a budget that is reasonable and appropriate for completion of the research process. For the STTR program, the PD(s)/PI(s) may be employed with the SBC or the small business partner or may have a formal appointment with or commitment to the applicant SBC, which is characterized by an official relationship between the SBC and that individual. Each PD/PI must commit a minimum of 10% effort to the project and the PD/PI must have a formal appointment with or commitment to the applicant small business concern, which is characterized by an official relationship between the small business concern and that individual.
Under the SBIR program, for both Phase I and Phase II, the primary employment of the PD/PI must be with the small business concern at the time of award and during the conduct of the proposed project.
Eligible applicants are awardees with an active NIGMS IDeA-CTR U54 ECHO award.

5/19/2020
Notice of Special Interest (NOSI): Availability of Urgent Research Award for Competitive Revisions to ECHO-CTR Applications, Notice of the Need for Documenting 2019 Novel Coronavirus, Severe Acute Respiratory Syndrome Coronavirus 2 (SARS-CoV-2) Related Patient Outcomes
PA-19-095
Application budgets are limited to no more than $400,000 in direct costs, plus applicable F&A, and must reflect the actual needs of the proposed project.
Eligible applicants are awardees with an active NIGMS-D47-CTR U54 award. The parent award must be active when the competitive revision application is submitted (i.e., within the originally reviewed and approved project period), regardless of the time remaining on the current project.

<td>Request for Proposals for the Development of Clinical Quality Measures to Improve Diagnosis</td>
<td>3/30/2020</td>
<td>$500K</td>
<td>Applicants should have an affiliation with an institution or sponsoring organization, including but not limited to academic institutions. Successful applicants will describe teams and partnerships that include a multidisciplinary group of experts, including clinicians with content expertise, individuals with appropriate analytic expertise (data science, statistics, measure development) and persons with experience using relevant data sources. An individual may satisfy more than one of these areas of expertise. Measure development expertise is helpful but not a requirement for funding.</td>

| The Society for Surgery of the Alimentary Tract | SSAT COVID-19 and GI Diseases Research Award                                          | $20,000 per year for two years                                                      | • Award is meant to support investigators within 10 years of faculty appointment.  
• The supported research should be focused on the impact of COVID-19 on GI diseases. This includes, but is not limited to, health care disparities, basic science, recovery, and clinical outcomes.  
• The award is restricted to surgeons who have completed formal clinical training in general surgery and are faculty appointed in a department of surgery at a medical school accredited by the Liaison Committee on Medical Education in the United States or by the Committee for Accreditation of Canadian Medical Schools in Canada, or the equivalent national accrediting body for applicants from other countries.  
• Candidates must be a member of the SSAT in good standing with the society.  
• Though a specific amount of dedicated research time is not required, the head of the Department and/or Division of General Surgery must ensure the applicant has sufficient protected time for the proposed research. | 7/1/2020                  |
| IBM                                          | COVID-19: Fight the global pandemic                                                    | $10K-$200K                                                                           | All team members must have accepted the 2020 Participation Agreement at the time they submit to be eligible. | 7/31/2020                  |
| Robert Wood Johnson Foundation                | Pioneering Ideas: Exploring the Future to Build a Culture of Health                    | Not Specified                                                                        | Preference will be given to applicants that are tax exempt under Section 501(c)(3) of the Internal Revenue Code and are not private foundations or Type II supporting organizations. Applicant organizations must be based in the United States or its territories. Submissions from teams that include both U.S. and international members are eligible, but the lead applicant must be based in the United States. Proposals will be accepted throughout the year on a rolling admission. | 10/31/2020                |
| Ferring Pharmaceuticals                       | FERRING COVID-19 INVESTIGATIONAL GRANTS in Reproductive Medicine and Maternal Health    | EUR 25,000 (Approximately $27,446)                                                   | Support is based on individual merit relative to other grant requests in accordance with established guidelines and policies and will not be provided to induce the provision of services or promote, sell, or prescribe a Ferring product. | 10/31/2020                |
| USC                                          | Keck School of Medicine: COVID-19 Research Fund                                         | No specific limit to the budget. Requests should reflect the proposed work and be justified in the justification.  
Proposal can contain up to one year of work.  
Awards made for first six months.  
Remaining funds contingent upon meeting milestones | Full-time Keck School of Medicine faculty (all levels) at USC and CHLA can apply as PI.  
Postdocs, residents, fellows, students, and faculty from other USC academic units, and community members can be included as co-investigators.  
Collaborations with researchers outside of the Keck School are encouraged.  
Funds from program must remain within USC.  
Outside collaborators should be supported by matching funds.  
Faculty members who are not U.S. citizens/permanent residents must hold a visa to allow them to remain in the U.S. long enough to complete the proposed project. | No Deadline                |
