**Notice**

Application budgets are limited to $500,000 direct costs annually. Any individual(s) with the skills, knowledge, and resources necessary to carry out the proposed research as the Program Director(s)/Principal Investigator(s) (PD(s)/PI(s)) is invited to work with his/her organization to develop an application for support. Individuals from underrepresented racial and ethnic groups as well as individuals with disabilities are always encouraged to apply for NIH support.

**Application Due Dates of August 7, 2020**

- **NON-RSF** Only: Applications must be received by the NIH on or before the Application Due Date of August 7, 2020.
- **NON-RSF** Only: The NIH will accept applications on a rolling basis beginning on July 8, 2020 for Applications Due Dates of August 7, 2020 OR September 8, 2020.

**NOT-OD-20-121**

Applications may be submitted beginning on July 8, 2020 for Application Due Date on August 7, 2020.

**NOT-OD-20-120**

Applications may be submitted beginning on August 7, 2020 for Application Due Dates of August 7, 2020 OR September 8, 2020.

**NOT-OD-20-119**

Applications may be submitted beginning on August 7, 2020 for Application Due Date of August 7, 2020 OR September 8, 2020.
Application budgets are not limited but must be commensurate with the scope of the proposed project.

For the program to support the best possible researchers and research, applications are sought which reflect the full diversity of the nation’s research workforce. Individuals from diverse backgrounds and from the full spectrum of eligible institutions in all geographic locations are strongly encouraged to apply to this funding opportunity announcement. Any individual(s) with the skills, knowledge, and resources necessary to carry out the proposed research are invited to work with his/her organization to develop an application for support. Individuals from underrepresented racial and ethnic groups as well as individuals with disabilities are always encouraged to apply for NIH support.

This notice applies to due dates on or after October 5, 2020 and subsequent receipt dates through September 8, 2023.

This notice applies to due dates on or after October 5, 2020 and subsequent receipt dates through September 8, 2023.
Application budgets are limited to $50,000 in direct costs per year.

Any individual(s) with the skills, knowledge, and resources necessary to carry out the proposed research as the Program Director(s)/Principal Investigator(s) (PD(s)/PI(s)) is invited to work with his/her organization to develop an application for support. Individuals from underrepresented racial and ethnic groups as well as individuals with disabilities are always encouraged to apply for NIH support.

This notice applies to due dates on or after June 14, 2020 and subsequent receipt dates through September 8, 2021.

NOT-AI-20-051

OPPNET, NIA, NIAAA, NCHD, NED, NIBIB, NIGMS, NINR, NIMHD, NCCIH, OBSSR

PA-20-209

Application budgets are not limited but need to reflect the actual needs of the proposed project.

Any individual(s) with the skills, knowledge, and resources necessary to carry out the proposed research as the Program Director(s)/Principal Investigator(s) (PD(s)/PI(s)) is invited to work with his/her organization to develop an application for support. Individuals from underrepresented racial and ethnic groups as well as individuals with disabilities are always encouraged to apply for NIH support.

NOT-OA-20-103

NIAID

PA-19-272

Total funding support (direct costs, indirect costs, fees) normally may not exceed $252,131 for Phase I awards and $1,848,478 for Phase II awards.

Applicants are strongly encouraged to contact program officials prior to submitting any application in excess of the hard caps listed above and early in the application planning process. In cases, applicants should propose a budget that is reasonable and appropriate for completion of the research project.

For the STTR program, the PD(s)/PI(s) may be employed with the SBC or the仰, “partnering” non-profit research institution as long as s/he has a formal appointment with or commitment to the applicant small business concern, which is characterized by an official relationship between the SBC and that individual.

PA-19-272

Notice of Special Interest (NOSI): Availability of Urgent Competitive Revisions and Administrative Supplements to Support Research on Biological Effects of the 2019 Novel Coronavirus on the Nervous System

4/30/2020

PAR-19-951

Application budgets may not exceed $300,000 direct costs. Exceptions to this budget limit may be made only with NINDS pre-approval and will only be approved under the very rare circumstances where the work may immediately impact public health. Application budgets are limited to no more than the amount of the current parent award, and must reflect the actual needs of the proposed project.

The parent award must be active when the supplement application is submitted (e.g. within the originally reviewed and approved project period, regardless of the time remaining on the current project). Applicants should contact the program office to determine eligibility.

**Eligibility:**

- Recipients may apply for work that is related to your funded project, whether within the scope or outside of the scope of the current project, regardless of the time remaining on the current project. Grants currently in an extension are eligible to apply.
- The parent award must be active when the application is submitted. NGS1 will accept the submission of applications for Competitive Revisions to active grants to address only the following research areas of interest:
  - Incorporation of data related to SARS-CoV-2 into ongoing research efforts to develop predictive models for the spread of SARS-CoV-2 & other related infectious agents (all relevant grants).
  - Repurposing or modification of diagnostic tools currently under development to enable rapid detection of SARS-CoV-2 infection (SBIR/STTR grants only).
  - Rapid development of potential therapeutic agents for COVID-19 (SBIR/STTR only).
- The parent award must be active (i.e., not be in an extension period), and the research proposed in the supplement must be accomplished within the remaining active budget period that started in the current fiscal year for the existing parent award.
- The parent award must be active (i.e., not be in an extension period), and the research proposed in the supplement must be accomplished within the remaining active budget period that started in the current fiscal year for the existing parent award.
- To be eligible, the parent award (UL1) must be active (i.e., not be in an extension period), and the research proposed in the supplement must be accomplished within the remaining active budget period for the existing UL1 parent award.
- To be eligible, the parent award (UL1) must be active (i.e., not be in an extension period), and the research proposed in the supplement must be accomplished within the remaining active budget period for the existing UL1 parent award.
- **Any individual(s) with the skills, knowledge, and resources necessary to carry out the proposed research (Principal Investigators) (PIs) (PHs) is invited to work with his/her organization to develop an application for support. Individuals from underrepresented racial and ethnic groups as well as individuals with disabilities are always encouraged to apply for NIH support.**

All organizations must be based in the United States or its territories. Applicants also may represent partnerships between service providers or practitioners and researchers. We request that only one lead partner fill out the LOI form on behalf of the organization and indicate partnering organizations in the relevant field. We strongly encourage applications that include researchers who are from groups that are underrepresented in policy research and/or are affiliated with institutions that serve underrepresented groups, such as historically black colleges and universities; academic institutions serving primarily Latinx students such as the Hispanic Centers of Excellence; tribal colleges; and other similar institutions.</td>

<td>Gordon and Betty Moore Foundation</td>
<td></td>
<td>Request for Proposals for the Development of Clinical Quality Measures to Improve Diagnoses</td>
<td>$500K</td>
<td>Applicants should have an affiliation with an institution or sponsoring organization, including but not limited to academic institutions. Successful applicants will describe teams and partnerships that include a multidisciplinary group of experts, including clinicians with content expertise, individuals with appropriate analytic expertise (data science, biostatistics, measurement development) and persons with experience using relevant data sources. An individual may satisfy more than one of these areas of expertise. Measure development expertise is helpful but not a requirement for funding.</td>

<td>The Society for Surgery of the Alimentary Tract</td>
<td>SSAT COVID-19 and GI Diseases Research Award</td>
<td>$20,000 per year for two years</td>
<td>• Award is meant to support investigators within 10 years of faculty appointment. • The supported research should be focused on the impact of COVID19 on GI diseases. This includes, but is not limited to, health care disparities, basic science, recovery, and clinical outcomes. • The award is restricted to surgeons who have completed formal clinical training in general surgery and are faculty appointed in a Department of Surgery at a medical school accredited by the Liaison Committee on Medical Education in the United States or by the Committee for Accreditation of Canadian Medical Schools in Canada, or the equivalent national accrediting body for applicants from other countries. • Candidates must be a member of the SSAT in good standing with the society. • Though a specific amount of dedicated research time is not required, the Head of the Department and/or Division of General Surgery must ensure the applicant has sufficient protected time for the proposed research.</td>

<td>COVID-19 Post Grant Program (2nd Round)</td>
<td>Grants of up to $8000 are available for a 6-month term</td>
<td>The current RFA is limited to scientists early in their career with an established university or research institution affiliation. Early career investigators are defined by ASF as those from pre-doctoral training to up to 7 years after completion of a postdoctoral fellowship or following medical training including the internship and fellowship. Pre and post-doctoral fellows are required to ensure that a letter of support is sent to ASF from their mentor or PI on the existing grant.</td>

<tr>
<td>Merck KGaA, Darmstadt, Germany</td>
<td>RESEARCH GRANT FOR PANDEMIC PREPAREDNESS</td>
<td>Up to $50,000 Euros/year (approx. $56,200) for 2 years with the option of extension.</td>
<td>The research grants program is open to scientists in all career stages who are affiliated with any research-based institutions, university or company. Applicants submit their application for the focus topics containing non-confidential information only. You may apply for more than one focus topic. If your application is successful, you will be invited to submit a full proposal and join a deep dive workshop with the other finalists in 2020. Submissions are accepted from scientists in all countries all over the world. There is no fixed deadline, since applications will be reviewed on a rolling basis so that we are able to provide a quicker response in these challenging times.</td>
